

The proposed seminar topics for Database Course

All seminars should be practical.

	title
1	NOSQL
2	OODBMS and ORDBMS
3	Data Mining
4	Parallel and Distributed Database Systems
5	Next-generation database technologies-Fuzzy
6	SP, Trigger Programming (PL-SQL, TSQL)
7	XML Databases
8	Indexing Techniques
9	Data warehousing
10	Image and multimedia database systems
11	Transaction Processing Concepts
12	Database Recovery Techniques
13	Concurrency Control
14	Graph DBMSs
15	File Store DBMSs
16	Hierarchical DBMSs
17	a DBMS (Oracle, MongoDB, FireBird,...)
18	Other topics on DB with arrangement
